SPIE's optics.org is the leading online resource for professionals using photonics based technologies, applications and for the diverse markets they serve.

After a period of unpredictable change, optics.org continues to recognize the strategic value of staying digitally connected for the generation and retention of highly engaged customers.

It's also no surprise that businesses are seeking a diverse choice of digital marketing solutions and optics.org has created a comprehensive range of marketing solutions and opportunities that work exclusively in combination with both SPIE Photonics Focus and SPIE's Exhibition and Conference programme.

Work together with optics.org to generate marketing opportunities that will strongly and impressively showcase products, drive lead generation and facilitate peer networking that will empower your brands and build a strong presence alongside your key competitors.

Please get in touch and we can help you create a targeted customer experience to put your brand and products in front of key decision makers who are also optics.org users and potential new customers looking to buy your products and services.

As we move into 2022, there has never been a stronger moment to drive your digital marketing strategies to put your company and products in front of key decision makers who are optics.org users.

If you don't have one then please talk to us. We can provide an enriched, targeted customer experience which enables users to interact directly with industry, as well as each other whilst supporting you in reaching thousands of potential new customers looking to buy your products and services.
“Our experienced team of journalists makes optics.org stand out from the crowd with its coverage of the photonics industry. Focused on the market trends and business developments that shape this high-tech sector, we bring you the stories behind the headlines – from market reports, mergers & acquisitions and CEO interviews, to industry events, start-up funding and patent disputes.

Whether it’s microscopy or solar energy, materials processing or infrared countermeasures, what sets optics.org apart is its attention to the commercial side of these technology-driven industries, with an emphasis on straight talking and market insight.

Keep on top of the fast-moving sectors that are served by photonics: get our weekly newsletter, visit the site for daily updates or follow us on Twitter.”

Matthew Peach
Editor-in-Chief, optics.org

Got an announcement to make? Send me your ideas.

New product announcements
Similarly, I am keen to receive press releases detailing new products. Each one should be around 250 words and describe your product’s specifications and applications. You should supply a high resolution JPEG, or flash file of your product. There is no charge but inclusion of your product cannot be guaranteed. Registered users can also log in to post their press and product releases.

3 simple stages

Take a look at optics.org's ad bundle opportunities – designed to deliver simple and cost-effective marketing programmes.

We've developed packages that deliver year-long promotion to our 30,000+ monthly digital users and 20,000+ weekly eNewsletter subscribers. We've also included priority listings in our 3000-company Buyers Guide and print promotion in our targeted Product Focus magazines.

There is currently huge demand for promotional services around key events throughout the year. Securing your bundle package will ensure your company and products have the visibility you need when you need it!

If you think you can get a better package with anyone else talk to us and we'll see what we can do!

See below for new Buyers Guide and bundle rates:

Stage 1

Choose your buyers guide listing

Free – Basic entry, no company logo, alphabetical listing.

Corporate Partner listing – Includes Company logo, enhanced entry and priority listing above Free listings.
Investment $775/€715/£600 per annum

Corporate Partner Platinum – Includes Company logo, enhanced entry, priority listing above Corporate Partners and Free Listings, Company logo displayed on all editorial pages.
Investment $1795/€1660/£1380 per annum

Microsite – 5 page microsite, 150x150 banner promotion in the optics.org buyers guide, High Priority listing above Corporate Partner Platinums, Corporate Partners and Free listings, company logo promoted on all editorial pages of optics.org
New: 12 mths - $3000/€2780/£2310

Stage 2

Choose your ad campaign package

Option 1
- 2x Star Product
- 1 month Leader/Skyscraper banner across all editorial pages of optics.org
- 2x 125x125 homepage post it banner
- 1x Product Sponsor in the weekly eNewsletter*
Total Investment $2500/€2310/£1925 per annum

Option 2
- 4x Star Product
- 4x month Leader/Skyscraper banner across all editorial pages of optics.org
- Introductory message in the weekly eNewsletter (middle position)*
- 1x White Paper

Total investment $8595/€7935/£6615 per annum

* eNewsletter sponsorship excludes the week before, during and after Photonics West and Laser World of Photonics, Munich.

Stage 3

Customise your package

Our bundle packages in Stage 2 offer the very best rates for our combined services, however we understand that these packages might not deliver the exact solution that your marketing strategy needs. If that's the case talk to the sales team about creating a bespoke package that meets your marketing need and advertising budget. All services can be purchased individually or in multiples, so tell us what you need and we'll create a package to suit.

New for 2022

Exhibition Promotions

Product Demo Video
Expand the exposure of your brand and products beyond the exhibition with a professionally recorded product demo video. Reach potential buyers that can’t make it to the show, highlight latest products beyond product images and datasheets.

- recorded onsite with our professional production team.
- Product Demo videos enable you to present latest products or systems to the readers of optics.org (30,000+ per month).
- post production: We’ll tidy up your demo video and provide you with an MP4 copy to use with your own promotions.
- hosted on optics.org for 12 months and promoted via the optics.org ‘Products’ pages. Product Demo videos deliver high value content and much needed brand and product exposure.
- Product Demo Videos will also be hosted in the optics.org exhibition Showcase and sent out to all 20,000+ subscribers of the optics.org eNewsletter.

**Duration:** Max 5 mins per video

Product Demo videos will be available at:
- BIOS
- Photonics West
- Laser World of Photonics
- VISION

**Investment:** $3500/€3235/£2695

Editor interview
10 min Q&A with Editor In Chief – Matt Peach
Branded advertising in print or online is a cost effective way to reinforce the company name in association with products or application areas, but to really connect with existing and potential buyers the best way to communicate is with a video interview with the editor of optics.org.

- highlighted and promoted on optics.org in advance of key events this is the perfect opportunity to deliver information on company advancements, areas of growth and share success stories.
- supports thought leadership marketing strategies aligning company ethos and expertise to quality of service or products.
- pre-recorded to ensure delivery of high quality content
- timely promotion ahead of key events/product launches/ major announcements
- promoted via the optics.org website, optics.org eNewsletter and social media channels

Investment: $3500/€3235/£2695

2022 promises to deliver an overflowing events calendar that will leave little time between shows for additional product promotions, upgrades or new applications. To maximise on the time, money and effort spent around exhibitions and tradeshows, optics.org will be publishing the optics.org product focus a cost effective tradeshows magazine that delivers your product information into the hands of attendees.

If you can’t attend a show or just need to give your products a bit of a push then advertise in the optics.org product focus magazine. Product Focus is a well-established and recognised source of product news at key shows throughout the year. Actively read by attendees the optics.org product focus magazine is a cost effective way to announce latest products and applications to potential buyers.

Distributed at key shows as well as sent digitally to our 20,000+ eNewsletter subscribers. Product Focus is the most direct way to communicate your latest product launches or give existing product lines the exposure they need. Even if you’re not exhibiting you can still reach the attendees in the optics.org product focus and we’ll make sure you secure vital exposure alongside competitors’ products.

If you’re looking for a cost effective solution that puts your product and brand into the hands of future buyers then there is no better solution than the optics.org product focus.

optics.org has been guaranteed high visibility to new products for nearly 25 years with the inclusion of optics.org product focus you can be sure that it will continue to deliver innovative new marketing solutions to support your sales and business growth.

Not covering one of your tradeshows? Let us know and we’ll see what we can do to support your marketing activities.

Advertising opportunities
We offer front cover and 1/6 page advertising positions for product promotion as well as ‘Sponsored’ editorial and paid for content.

See next page for Technical Information and price structure.

* Prices and sizes for advertising in the Photonics West Product Focus can be found in the SPIE Photonics West Focus media information.
### Advertising Material

**You can e-mail your copy and files to Rob Fisher at rob.fisher@optics.org**

Copy should not be more than 85 words (350 words for the front cover ad). Full company details should be provided plus any contact names.

Product photo size: 80mm x 104mm

Photo should be supplied as high-resolution TIFF, JPEG and EPS files. All image files must be 300 dpi minimum at above size and CMYK.

If time allows, your details will be checked by our production team to ensure that the dimensions, format, resolution, colour and fonts are set up correctly for printing, but responsibility for supplying correct files remains with the advertiser.

**VAT**

All UK advertisers are subject to VAT at 20%.

**Terms and conditions**

Advertising is accepted only on the basis of our “Conditions of acceptance for advertising”.

For more information, contact the sales team or e-mail sales@optics.org
BiOS Hot Topics: imaging techniques break new ground

Advances in photoacoustic tomography, deep learning, and super-multiplex spectroscopy offer new views of cells and blood vessels.

Despite a period of severe disruption to clinical practice and supply chains, as well as to researchers' lives, biophotonics and bioimaging innovations have continued to make dramatic advances. Those breakthroughs are reflected now in the vitality of the BiOS Hot Topics session at SPIE Photonics West (Saturday, 22 January, 7:00 pm — 9:00 pm).

"The continuing pandemic has definitely slowed things right down," said Lihong Wang, the Bren Professor of Medical Engineering and Electrical Engineering at Caltech and a pioneer in photoacoustic (PA) imaging techniques. "Everything from arranging for human subjects to take part in clinical trials to the ordering of components and devices from suppliers has been disrupted. Meetings have been virtual most of the time.

Connecting with 2022 SPIE President Anita Mahadevan-Jansen

For her 30th Photonics West meeting, Vanderbilt University biophotonics pioneer can't wait to say hello.

It's all about connecting, says 2022 SPIE President Anita Mahadevan-Jansen, Professor and Director of the Vanderbilt Bioimaging Center at Vanderbilt University.

For her, attending this year's Photonics West completes something of a circle in her professional life. Or maybe it's another lap.

First off, she is happy to share with you about the interesting and rewarding road she travelled to become President of an international technical society like SPIE. It began at Photonics West:

"When I was a graduate student, Photonics West and SPIE were synonymous. I attended my first Photonics West in 1992 as a second year PhD student to present my most recent work," Mahadevan-Jansen says. "As it happened, attending my first Photonics West was one of the best decisions of my professional career. I walked into the meeting knowing just a handful of people and little else. In fact, I had walked into a new world."

This week, she'll be juggling the

SATURDAY

BIOS EXPO

PHOTONICS WEST

JANUARY 22-23, 2022

PHOTONICS WEST BIOS SHOW DAILY WEEKEND EDITION

28 - 29 January 2023

• the official magazine incorporating BIOS Expo, LASE, OPTO, AV, VR, MR and BRAIN
• latest news pre Show
• reconnect with customers and prospects in San Francisco

for the full schedule, see the technical program and exhibition guide or download the SPIE Conferences app. Some events require registration.
**Fundamental to business development**

SPIE BIOS Expo is a key industry event and will be a core component for any marketing plan aimed at driving business development, showcasing products, and creating valuable lead generation for thousands of companies across the photonics industry as they look forward to reshaping their futures.

Bringing products to market and building footfall to your booth will be more essential than ever and one thing that you can be sure of is that demand for advertising and sponsorship opportunities will be high, with availability limited.

**Delivering your marketing messages**

By working in close partnership with optics.org you will be able to reserve space in the BIOS Show Daily Weekend Edition, the official BIOS newspaper for SPIE BIOS Expo, to ensure that your products, marketing message and brand are delivered to conference attendees each and every day of the show.

**Essential reading**

The BIOS Show Daily Weekend Edition will deliver compelling up-to-date content and insight on upcoming events, company news and latest products and applications.

If you are launching a product, announcing a demo or you simply want to highlight your booth location there is no better way than taking space in the BIOS Show Daily Weekend Edition.

**Massive distribution throughout the Show**

Distribution of the BIOS Show Daily Weekend Edition will be in prime locations accessible only by SPIE, including inside the Moscone Center in the Photonics West Registration areas and high traffic visitor areas, giving you more exposure to attendees than ever before.

The BIOS Show Daily Weekend Edition will provide you with direct access to your target buyers and should be considered integral to your Photonics West marketing plans. Guarantee greater exposure ahead of other exhibitors and give your company the recognition it deserves.

There are no substitutes

If it isn’t in the BIOS Show Daily Weekend Edition – then it isn’t official.

**Connect with customers and prospects in San Francisco**

Share your latest solutions and make important contacts with the right audience as everyone assembles for an exciting year of collaboration and business growth. Meet new prospects face-to-face and reconnect with customers at the BIOS Expo in San Francisco.

Don’t miss your opportunity to be a part of the world’s largest marketplace for biomedical optics and biophotonics.

You can count on SPIE to follow health and event-management best practices to ensure a safe and productive opportunity to meet.

**BIOS is at the forefront of emerging technologies**

BIOS is the world’s largest international biomedical optics conference, encompassing clinical, translational, and fundamental R&D in the field of biomedical optics and photonics. It provides the premier technical forum for reporting and learning about the latest research and development, including response to COVID-19, as well as for launching new applications and technologies.
Benefits of being seen in the BiOS Show Daily WEEKEND EDITION at Photonics West

Connect your company with today’s leading biomedical researchers

Showcase your latest advancements, products, or services to a qualified audience.

Connect with people who need your products and services

- Medical and optical physicists
- Biomedical research clinicians
- Optical instrument developers
- Equipment designers
- Bioengineers
- Cell physiologists
- Cancer therapists
- Molecular imaging specialists

Connect with people looking for solutions in a variety of categories

- Biomedical, medical imaging, health care
- Cameras and imaging systems
- Chemical and biological analysis
- Detectors, sensors
- Laser components and accessories
- Lasers and systems
- LED, OLED, Non-laser light sources
- Machine vision, Factory automation
- Materials processing, lasers in manufacturing
- Optical coatings, thin films
- Optical components
- Spectroscopy devices and equipment
- Test and measurement, metrology

BiOS, an important part of Photonics West

BiOS - the largest biophotonics, biomedical optics, and imaging event in the world - helps kick off SPIE Photonics West each year. Together, these two powerful events connect the global scientific community committed to advancing light-based research. Make sure your company is part of this important event.

Contact Rob Fisher, Advertising Sales  tel: +44 (0)117 905 5330  email: rob.fisher@optics.org
We are able to offer a wide range of advertising positions and sizes – in fact, something to meet every marketing need and budget. So whether you are looking for high-impact brand advertising or a new product advert to sit alongside relevant editorial, we have something for you.

As part of SPIE, there are many international exhibition, sponsorship, and advertising opportunities associated with SPIE events and SPIE Photonics Focus. Let’s talk about how we can create a multi-channel marketing campaign together!
Make the news at Photonics West 2023

PHOTONICS WEST. SHOW DAILY

31 January - 2 February 2023

Back to business... Many exhibitors were prepared for any business after a long hiatus.

Light control: VirtuLab wins Startup Challenge

Laser leader Lumentum is keeping the wheels turning

A higher power: Fiber lasers at the cutting edge

THANKS FOR COMING—SEE YOU NEXT YEAR

extensive distribution during the Show
published on site and printed overnight, each day, every day
latest news from the Show floor
planning for over 20,000 attendees
Fundamental to business development

Photonics West is a key industry event and will be a core component for any marketing plan aimed at driving business development, showcasing products and creating valuable lead generation for thousands of companies across the photonics industry as they look forward to reshaping their futures.

Bringing products to market and building footfall to your booth will be more essential than ever and one thing that you can be sure of is that demand for advertising and sponsorship opportunities will be high, with availability limited.

Delivering your marketing messages

By working in close partnership with optics.org you will be able to reserve space in the Photonics West Show Daily, the official daily newspaper for Photonics West, to ensure that your products, marketing message and brand are delivered to conference attendees each and every day of the show.

Essential reading

The Photonics West Show Daily will report the latest news from both the show floor and the conference and will be published daily with compelling up to date content and insight as the event unfolds. If you are launching a product, announcing a demo or you simply want to highlight your booth location there is no better way than taking space in the Photonics West Show Daily.

Massive daily distribution at exclusive locations

Distribution of the Photonics West Show Daily will be in prime locations accessible only by SPIE, including inside the Moscone Center in the Photonics West Registration areas and high traffic visitor areas, giving you more exposure to attendees than ever before.

New edition published daily

The Photonics West Show Daily will provide you with direct access to your target buyers and should be considered integral to your Photonics West marketing plans. Guarantee greater exposure ahead of other exhibitors and give your company the recognition it deserves.

There are no substitutes

If it isn’t in the Photonics West Show Daily – then it isn’t official.

It’s where buyers come to buy

Industrial R&D, product engineers, and scientists from around the globe come together at Photonics West. In addition to companies, leading government and research organizations also send hundreds of attendees to learn what’s new.
Benefits of being seen in the Show Daily at Photonics West

Be a part of the most important gathering of the year

Start your year off right at the leading photonics and laser event.

FEATURED TECHNOLOGIES:
- Lasers and other light sources
- Laser accessories, laser systems
- Cameras and CCD components
- Fiber optic components, equipment, systems
- Optical components
- Communication
- Optical detectors
- High speed imaging and sensing
- Optical materials and substrates
- IR sources and detectors
- Electronic imaging components
- Optical coatings
- Lenses and filters
- Positions and mounts

Planning for 20,000 attendees in 2023

Photonics West historically attracts over 20,000 international attendees.
We look forward to seeing everyone again in San Francisco for the photonics industry’s premier face-to-face, live event.

Expand your revenue and your growth

Reach the qualified audience attracted to this world-class event.

ATTENDEE JOB FUNCTION FROM PREVIOUS YEARS:

Optics.Org Product Focus
Product Focus is a print publication from optics.org and will form part of the Photonics West Show Daily. It is the ideal place to announce a new product or to ensure your existing products get the visibility they deserve. If you are exhibiting at the Show, we will include your booth number in your advertisement making it easy for potential customers to find your products.

Eighth Page Product
Copy should not be more than 85 words. Full company details should be provided plus any contact names. Product photo size: 40mm x 30mm Photo should be supplied as high-resolution JPEG or EPS files. All image files must be 300 dpi minimum at above size and CMYK.

Artwork Specifications

**Digital materials are required:** Hi-res print-ready Acrobat PDFs preferred. Supply all ads with crop marks clearly indicated. Hard copy proofs are requested with all materials.

**Accepted Native File Formats:** Include (Macintosh platform only) Adobe InDesign, Illustrator, and Photoshop. PC-based files are not accepted. Please convert PC-based files to Illustrator EPS with fonts turned into outlines. Always include all fonts and supporting graphics.

**Unacceptable Programs and File Formats:** GIF, JPEG or PNG files are not accepted. QuarkXPress, Adobe PageMaker, Corel Draw, Microsoft Publisher, Microsoft Word, PowerPoint, or low quality PDFs are also not accepted.

**Bleed Allowance:** Full page ads require .125" bleeds ALL SIDES. Incremental ads (1/2 page, 1/4 page and cover strips) do not bleed and must be made to exact size. A 1/2 point keyline is recommended to outline all incremental ads.

**Live Area/Safety Margin:** Keep all live matter .375" from edge.

**Color:** CMYK only. RGB files are not accepted.

**Graphics:** Import images at 100% size and at 300 dpi resolution.

**Fonts:** Open Type or Postscript Type 1 fonts only. Provide all printer and screen fonts. Do not apply character-level styling in page layout application. Avoid using True Type or DFont fonts.

**Proofs:** High quality color proofs output at 100% showing crop marks.

**Pick ups:** Materials cannot be picked up from previous directories or from other sources. Please supply new files for each insertion.

**Storage and Liability:** Photonics West Show Daily does not store or return material after printing. Photonics West Show Daily is not liable for loss or damage of ad materials. Materials not prepared to Photonics West Show Daily specifications may incur additional charges and may sacrifice reproduction quality. Publisher is not responsible for incorrect or incomplete ad materials.

Jülich Research Center develops novel infrared detector for smart phones
VISION focus magazine delivers the very latest news on imaging and machine vision applications and technologies. Targeted at OEMs and system integrators VISION focus puts your products alongside the latest imaging business news, market trends and product launches.

Sent out digitally to over 20,000 industry professionals every quarter VISION focus magazine is the most cost effective way to engage with potential buyers across a wide range of industries. From automated production lines to biomedical research VISION focus delivers news relevant to your products. VISION focus will enable you to promote your latest products, enforce brand and encourage direct contact at key times in the imaging and machine vision calendar. Ensure your latest product launches, press releases and in-person events is limited but don’t let the reduction of physical events or virtual trade show attendance are seen by the key decision makers, from high speed industrial processes to biomedical imaging, security+defense and multispectral applications. We’ve got it covered!

Working in partnership with optics.org, VISION focus guarantees exposure in highly relevant vertical markets, whilst also expanding product promotion to a wider audience and increasing the potential to reach new customers. optics.org has over 30,000+ user visiting the site every month.

We all know that exhibitions and conferences are a crucial component of any marketing plan and that, for now, product and brand exposure at in-person events is limited but don’t let the reduction of physical events limit your marketing objectives and goals. Digital and hybrid exhibitions and conferences now combine the best of both worlds and with new digital technology comes the benefit of no constraints by space or time. As we move into 2021 there has never been a stronger moment to drive your digital marketing strategies to put your company and products front of key decision makers who are reading VISION focus.

Target markets and applications
- High speed imaging
- Biomedical research
- Agriculture
- Security
- Transportation
- Industrial processes
- Quality control and Safety

Job Function
- Senior Management
- Design & Development/System Integration
- Manufacturing/Production Engineering & Quality Control
- Engineering Management
- Research & Development

Cost effective marketing
VISION Focus is a digital magazine. We have no printing or postage costs and pass these savings onto you. Working in partnership with the optics.org website VISION Focus combines the best of magazine and web media to ensure a global presence at a fraction of the cost of other trade magazines.

## Advertising Material

You can e-mail your copy and files to Rob Fisher at rob.fisher@optics.org

Copy should not be more than 85 words and full company details should be provided plus any contact names.

**Product photo size:**
- Minimum 35mm (w) x 30mm (h)

Photo should be supplied as high-resolution TIFF, JPEG and EPS files. All image files must be 300 dpi minimum at above size and CMYK.

If time allows, your details will be checked by our production team to ensure that the dimensions, format, resolution, colour and fonts are set up correctly for printing, but responsibility for supplying correct files remains with the advertiser.

**VAT**

All UK advertisers are subject to VAT at 20%.

## Terms and conditions

Advertising is accepted only on the basis of our “Conditions of acceptance for advertising.”

For more information, contact the sales team or e-mail sales@optics.org

Handy hint. eNewsletter Banners used in conjunction with leader or skyscraper banners on optics.org ensures month long brand visibility with a focused marketing message to drive traffic to your site.
The optics.org career center is the leading recruitment resource for companies and professionals in the optics and photonics community.

Optics.org has partnered with SPIE, the international society for optics and photonics, to connect the industry’s top talent with the industry’s top employers.

If you’re recruiting there is only one place to look. The optics.org career center provides:
- Online Job board
- Advertising opportunities
- Job Fairs
- Access industry news articles and recruiting advice
- Training videos and much more...

Demographics
71% of candidates hold a Masters Degree or higher.

Traffic
Over 7,600 registered users.
