When optics is an enabling technology for your Lens and camera testing should be clear cut. Optikos.

When customers visit our Greater Boston, Mass. location, they're often surprised to see the extent of our state-of-the-art manufacturing space and capabilities. It is in print is viewing it in person.

Miles Padgett addresses the overflowing crowd at Photonics West.

Future-focused

Global shortages of photonics materials and components, together with the related impact on supply chains, has resulted in a significant increase in the sourcing of new suppliers and business partners to maintain and develop products and services. Conversely, this arena has also created opportunity and driven innovation; crucial components to carry the photonics market into the next generation. If growth opportunities identified in the medical, defence and sensing markets are also factored in we see major opportunities to drive business development and showcase products.

Fundamental to business development

Photonics West is an essential industry event and, with a real appetite from conference delegates and exhibition attendees to return to in-person attendance, there are great opportunities for face-to-face participation in the conversations and decision making that happen here. Photonics West remains a core component in driving your business development and strategic marketing planning.

Delivering your marketing messages

By working in close partnership with optics.org you will be able to reserve space in the Photonics West Show Daily, the official daily newspaper for Photonics West, to ensure that your products, marketing message and brand are delivered to conference attendees each and every day of the show.

Massive daily distribution at exclusive locations

Distribution of the Photonics West Show Daily will be in prime locations accessible only by SPIE, including inside the Moscone Center in the Photonics West Registration areas and high traffic visitor areas, giving you more exposure to attendees than ever before.

There are no substitutes

If it isn’t in the Photonics West – then it isn’t official.

It’s where buyers come to buy

Industrial R&D, product engineers, and scientists from around the globe come together at Photonics West. In addition to companies, leading government and research organizations also send hundreds of attendees to learn what’s new.
Benefits of being seen in the Show Daily at Photonics West

Be a part of the most important gathering of the year

Start your year off right at the leading photonics and laser event.

FEATURED TECHNOLOGIES:
- Lasers and other light sources
- Laser accessories, laser systems
- Cameras and CCD components
- Fiber optic components, equipment, systems
- Optical components
- Communication
- Optical detectors
- High speed imaging and sensing
- Optical materials and substrates
- IR sources and detectors
- Electronic imaging components
- Optical coatings
- Lenses and filters
- Positions and mounts

Planning for 20,000 attendees in 2024

Photonics West historically attracts over 20,000 international attendees.

We look forward to seeing everyone again in San Francisco for the photonics industry’s premier face-to-face, live event.

Expand your revenue and your growth

Reach the qualified audience attracted to this world-class event.

As part of SPIE, there are many international exhibition, sponsorship, and advertising opportunities associated with SPIE events and SPIE Photonics Focus. Let’s talk about how we can create a multi-channel marketing campaign together!
Video Interviews and Product Demos

Take advantage of a great opportunity to explain and promote your products not just to show attendees but also to a much wider audience worldwide.

Photonics West now offers a service which enables you, to film your product promotion and visually demonstrate the tangible benefits way beyond a printed ad or banner placement. All from the comfort of your own booth.

Photonics West video interviews and product demos service will fully expand the exposure of your brand and products beyond the exhibition itself and include these valuable benefits:

- Your video will be promoted to 30,000+ optics.org users.
- Your video will be hosted on optics.org for 12 months and promoted specifically via the optics.org Products pages.
- Your video will be promoted in the Photonics West eNewsletter which is distributed to our 20,000 optics.org newsletter subscribers.
- You will receive an MP4 video for your own individual promotions and marketing activities.

Rates from: $3500/€2900/£3200
