Jülich Research Center develops novel infrared detector for smart phones

Published in VISION focus Autumn 2021
VISION focus magazine delivers the very latest news on imaging and machine vision applications and technologies. Targeted at OEMs and system integrators VISION focus puts your products alongside the latest imaging business news, market trends and product launches.

Sent out digitally to over 20,000 industry professionals every quarter VISION focus magazine is the most cost effective way to engage with potential buyers across a wide range of industries. From automated production lines to biomedical research VISION focus delivers news relevant to your products. VISION focus will enable you to promote your latest products, enforce brand and encourage direct contact at key times in the imaging and machine vision calendar. Ensure your latest product launches, press releases and in-person or virtual trade show attendance are seen by the key decision makers, from high speed industrial processes to biomedical imaging, security+defense and multispectral applications. We’ve got it covered!

Working in partnership with optics.org VISION focus guarantees exposure in highly relevant vertical markets, whilst also expanding product promotion to a wider audience and increasing the potential to reach new customers. optics.org has over 30,000+ user visiting the site every month.

We all know that exhibitions and conferences are a crucial component of any marketing plan and that, for now, product and brand exposure at in-person events is limited but don’t let the reduction of physical events limit your marketing objectives and goals. Digital and hybrid exhibitions and conferences now combine the best of both worlds and with new digital technology comes the benefit of no constraints by space or time. As we move into 2021 there has never been a stronger moment to drive your digital marketing strategies to put your company and products in front of key decision makers who are reading VISION focus.
